

William Morris – making patterns

Did you draw some flowers or leaves last week? Did you like William Morris's designs? This week we are going to create our own designs using our drawings.

Here are some flowers I found in my garden.

And here are my drawings.

Let's have another look at William Morris's
work.

He designed stained glass windows.....

He designed tapestries....

He designed patterns for curtains and other fabrics.....

He was very famous for his wallpaper designs.....

Let's look closely at some of William Morris's designs.

Snakeshead design.

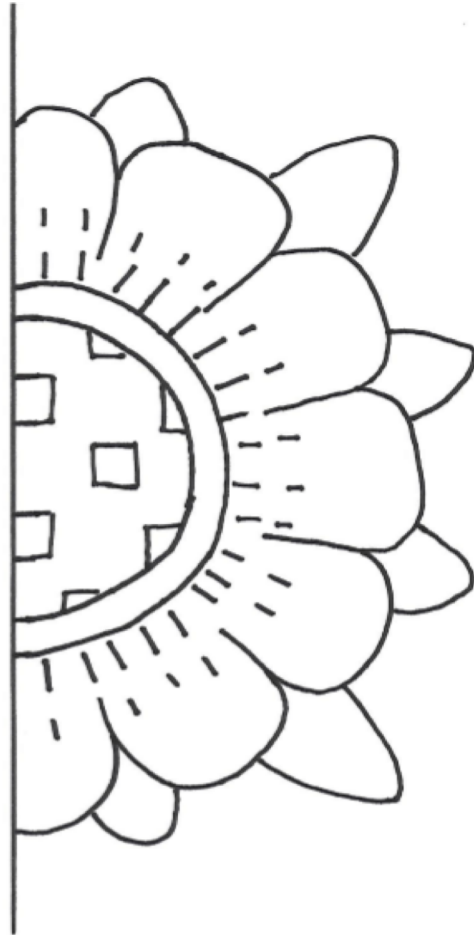

Indian diapers design

Strawberry thief design.

Can you finish off a William Morris Design?

Or this one (it's a bit trickier)

Now can you simplify your flower drawing to make a 'motif' that could be used in a pattern? This is my tulip motif.
